The Enterprise Business Rental Program - U.S.
 The company that is famous for great cars, low rates, and free pick-up also offers a terrific business rental program to save you more time and money, and as a member you and your employees will receive even more, such as:

- Special pricing on every rental; whether it's for a day, a week, a month or more
- More than 6500 neighborhood locations in North America and over 220 major airport locations
- With more than 650,000 vehicles in fleet get the exact vehicle you need

Enterprise will work with you to customize a rental program designed specifically to meet your individual needs. [Apply now.](#)

Business Rental Services

Custom Rate Plan
 Enterprise offers straight forward rate plans that make renting easy for you and your employees. Enjoy the benefits of your rate plan at any one of your neighborhood or airport locations across North America, for business or pleasure.

Reduce Company Fleet
 Gain cost-effective alternatives to owning a pool fleet. New vehicles support a strong company image, so ensure you have the right car available.

Mileage Reimbursement Alternative
 Successful businesses are recognizing the many benefits and cost savings of renting instead of reimbursing for miles.

- Save money by renting vehicles instead of paying for mile/km reimbursement
- Ensure accurate accounting/invoicing
- Reduce insurance and liability risk
- [Rental vs. Reimbursement Calculator](#)

- Complete all six fields based on the travel event being considered.

Rental vs Employee Reimbursement Calculator
[close window](#)

Input Values [Print this page](#)

All fields required

Distance to be Traveled: Miles ← 1

Total Days in Trip: ← 2

Car Rental Daily Rate: * USD ← 3

Cost of Fuel: Gal. ← 4

Reimbursement Rate: USD / Miles ← 5

Rental Car Fuel Usage: Miles / Gal. ← 6

← 7

* Actual rate may vary. Additional taxes, surcharges etc. may apply

8 → [Print this page](#)

- **1. Distance to be Traveled:** Enter the total round trip miles for the travel event
- **2. Total Days in Trip:** This is the total number of days the rental vehicle will be used
- **3. Car Rental Daily Rate:** Enter the vehicle rental price from the Enterprise contract for the vehicle type being used. This should usually be a compact, economy, intermediate, or standard class vehicle.
- **4. Cost of Fuel:** This should be current price per gallon for fuel
- **5. Reimbursement Rate:** Enter the current mileage reimbursement rate. The current rate can be found on the IDOA Travel Services webpage at <https://www.in.gov/idoa/2459.htm>.
- **6. Rental Car Fuel Usage:** Use 28 mpg. This is based on multiple sources including the U.S. Department of Energy and Kelley Blue Book.
- **7. Calculate Results:** Once all of the values have been entered click Calculate Results. The tool will calculate the costs for both renting from Enterprise and reimbursement to the employee. The more cost effective method will be highlighted.
- **8. Print this page:** Click the Print this page link to document the results.
